

PRESS RELEASE: THE SURRENDER DOCUMENT

As of 2017-11-20, *Alexander Bitar History* are announcing The Surrender Document; the most important document ever offered for sale. A document dated May 7 1945, in which Germany surrender the Second World War – the unconditional surrender of Nazi Germany.

It's indeed an enormous honor and privilege to offer a document that forever changed the world. When the upcoming generations will summarize the 20th century – they will do so by referring to the Second World War. What happened between 1939 and 1945 is simply horrible, and heartbreaking – very much so! Approximately 80 million human beings died, both military and civilians. 80 million... This document demonstrate that evilness lost – and humanity won.

This is the true definition of a once-in-a-lifetime-opportunity.
